

# Freedom Stack

Compact, Powerful & Dependable

# Freedom to Work Anywhere...Anytime

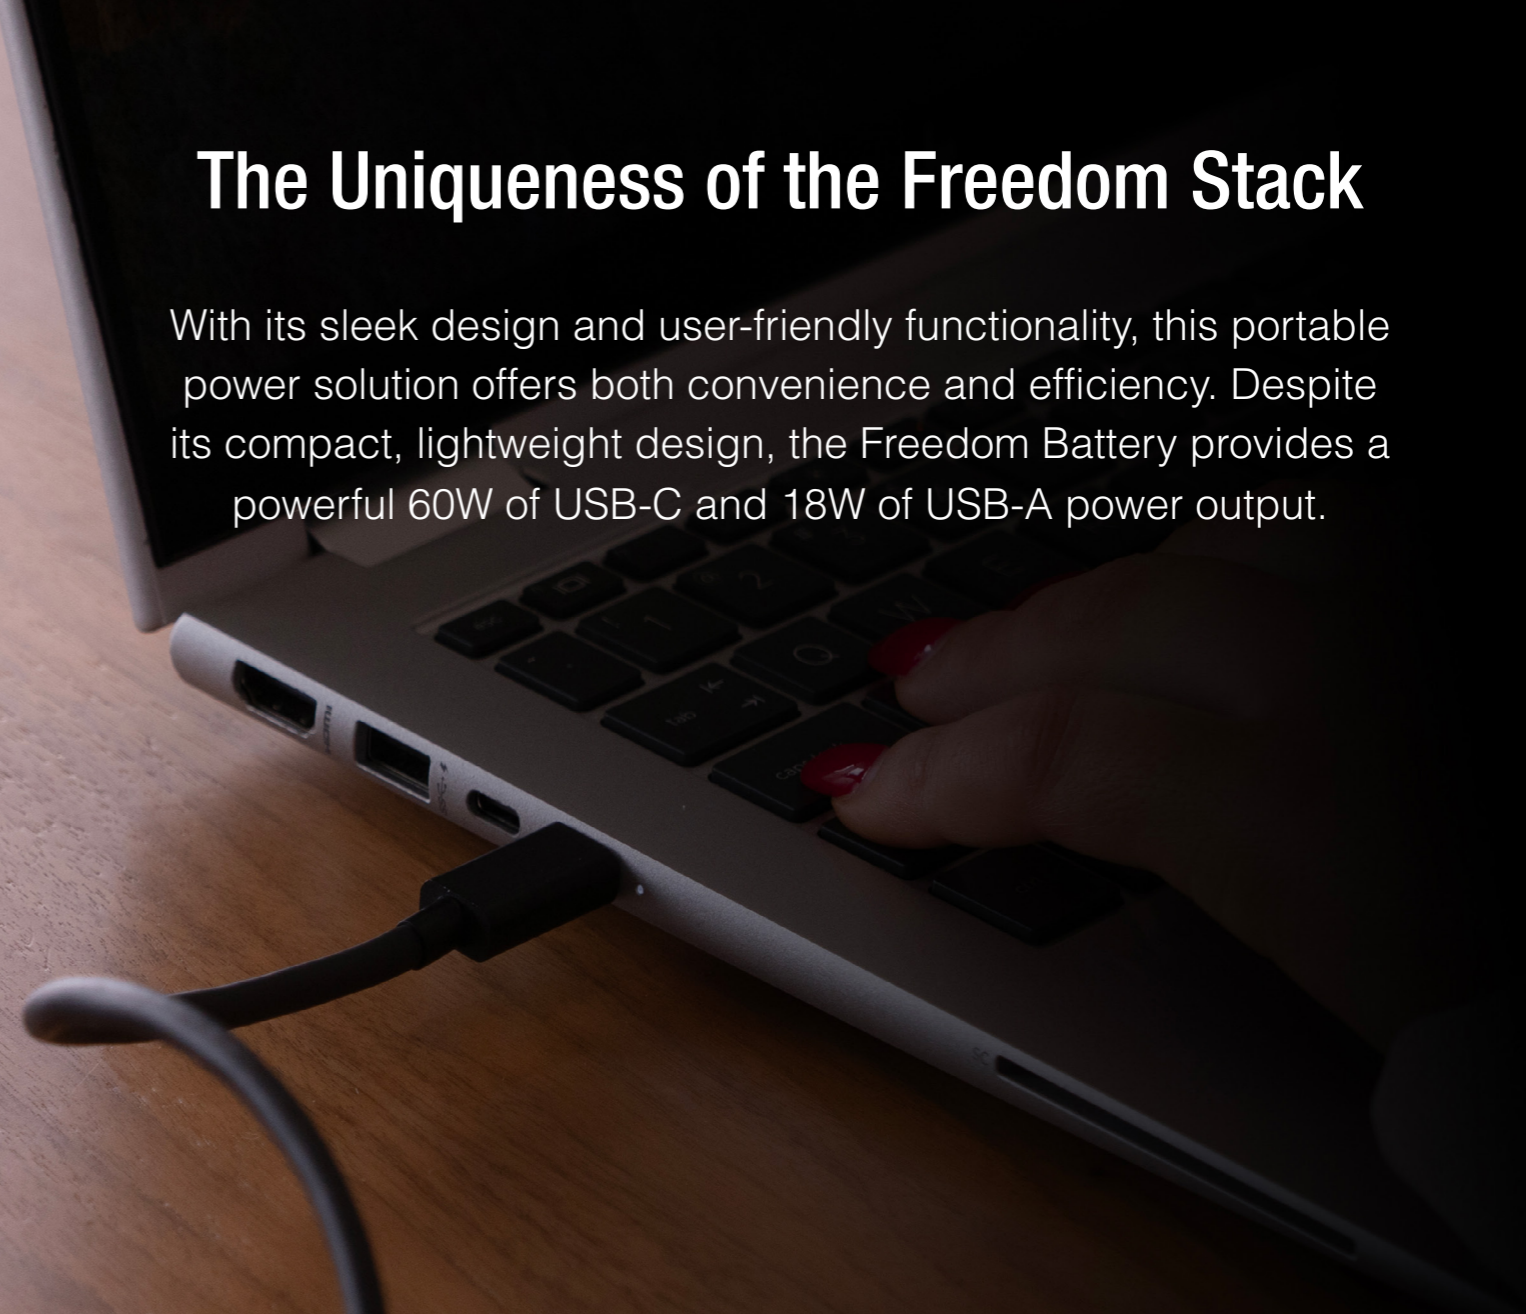

Freedom Stack is a portable charging system that features stackable power banks. Each battery provides up to 78W of USB A/C Fast Charging, perfect for charging mobile devices and most laptops.

Designed with enterprise in mind, Freedom keeps you powered up while in collaborative or shared spaces, without the need for fixed power outlets.

# The Uniqueness of the Freedom Stack

With its sleek design and user-friendly functionality, this portable power solution offers both convenience and efficiency. Despite its compact, lightweight design, the Freedom Battery provides a powerful 60W of USB-C and 18W of USB-A power output.

## Stay Powered Up in Quiet Spaces

Quiet spaces in the workplace foster daily employee engagement by offering flexible environments where staff can focus, collaborate, or recharge.

These thoughtfully designed zones allow individuals to work comfortably while staying connected to power sources, enhancing both productivity and well-being.

# Power That Moves With You

In collaborative environments like meeting rooms and shared spaces, power access often limits productivity. Freedom Stack keeps most laptops powered through any meeting or collaboration without searching for outlets. It is designed to move with your team to keep everyone charged, focused and productive.

# Charging Capacity & Power Consumption

The Freedom Stack is designed to provide USB charging for a wide range of devices while ensuring the correct charging output for each one. Technology has advanced to the point where modern devices can communicate with a USB charger to regulate power delivery and prevent any risk of overload.
