

Let your productivity flow

Perform at your peak with
a Fellowes Monitor Arm

Fellowes

FIRA Compliance

FIRA International are an independent Ergonomic Standards Accreditor.

This logo signifies that the relevant product complies with EU Health and Safety Legislation: BS EN ISO 9241 Ergonomic requirements for office work with visual display terminals (VDT's): Part 5: 1999, workstation layout and postural requirements.

All Fellowes monitor arms are FIRA accredited.

The precision you need. The style you want.

When we're in a flow state, incredible things happen. We become totally immersed, able to fly through activities without being distracted. Time seems to pass unnoticed as we achieve more. Can you imagine if every day we could be in that flow state? A Fellowes Monitor Arm makes it possible, by helping you accomplish tasks faster, easier and in heightened ergonomic comfort. Allowing you to perform at your peak, however you wish to work.

In a 2021 survey*, 48% of participants said that relieving neck pain would make their workspace healthier for them. Using a Fellowes monitor arm means that you can set your screen to the exact height and angle to improve your health when working. This reduces the risk of neck pain and allows for more comfortable, productive working.

Fellowes 100-year wealth of research and product development in the office workspace has resulted in a monitor arm and accessories range designed to allow effortless adjustment for full workspace flexibility, with configurations and added features to suit all individual work styles.

Tallo™ &

Tallo Modular™

Our most sophisticated range of monitor arms,
expertly crafted to perform effortlessly

Tallo™ not only reimagines how a monitor arm can facilitate productive work, but enriches it through human-centered design. Modern in appearance, robust in performance, Tallo™ makes any desk a productive space for comfortable, meaningful work.

Perfect
Harmony

How Tallo™ works

Choose a configuration to suit your needs from a mixture of fixed and gas spring arm options.

Fixed and motion arms

Fixed arms provide additional reach and movement as well as being a cost effective solution where regular height adjustment is not required. Motion arms deliver effortless gas spring height adjustment, great for hot desking and collaborative working.

Sliders

Sliders allow you to increase the size of screens an arm can hold whilst enabling you to place screens seamlessly side by side. This helps to save valuable desk space and maintain an ergonomic working position.

Seamless Adjustment

Proprietary design

Tallo™ & Tallo Modular™ arms by Fellowes, were created to bring distinct style, sophistication and ergonomic excellence to the workspace.

Tallo Modular™ motion arms

Tallo Modular™ configurations that include a motion arm (M) offer finger touch dynamic height adjustment. That means the monitor can reposition up and down with ease.

Tallo Modular™ fixed arms

Tallo Modular™ configurations using fixed arms (F) have manual height adjustment. They rotate left and right along the pole, offering flexibility with lateral adjustments.

Flexible growth

Because the Tallo Modular™ is pole mounted, arms can be added as needed to support additional monitors.

Quality testing

Meets or exceeds ANSI/BIFMA x5.5 guidelines.
Tested by FIRA International Ltd to comply with the ergonomic requirements set out in European Health and Safety Legislation: EN ISO 9241-5.
Awarded Ergonomic Excellence by Fira International

Monitor Arms

Tallo™ & Tallo Modular™

Tallo™

Tallo™
Single monitor arm

Features

- Finger touch dynamic height adjustment
- Recommended for worksurfaces 45mm or less for clamp or 75mm or less for grommet
- 322mm height adjustment range 178-500mm (low-high)
- 619mm arm extension
- 74mm arm retraction
- +75°/-35° monitor tilt
- ±90° VESA rotation
- 1kg-9kg weight capacity
- VESA 75mm/100mm quick release
- 180° lock-out feature
- 360° arm rotation with 180° lock
- Desk clamp and grommet mount included
- 40" max monitor width
Bezel measured left to right.
Max. width is contingent on weight capacity.
- Meets or exceeds BIFMA x5,5 guidelines
- Warranty: Lifetime

Tallo™
Dual monitor arm

Features

- Finger touch dynamic height adjustment
- Recommended for worksurfaces 45mm or less for clamp or 75mm or less for grommet
- 322mm height adjustment range 178-500mm (low-high)
