

Furniture deserves a second life.

A smarter way to recover, refurbish and recycle commercial furniture.

Why it matters.

Every workplace change is an opportunity to reduce waste and create positive impact.

Reduce Landfill

Divert valuable materials from waste

Support ESG objectives

Demonstrate real action on sustainability and responsible procurement

Contribute to Green Star

Support Green Star (GBCA) Credit achievement*

Transparent reporting

Receive clear, meaningful data on your impact

*For builders & developers working towards Green Star certifications, partnering with Workspace may contribute to achieving higher Green Star ratings.

Why Workspace?

Australian manufacturer since 1911

Australia's first ISO 14006 Eco Design manufacturer

National collection network

Certified recycling partners

Carbon-offset delivery fleet

End-to-end project management

How it works.

1.

Audit

We assess your furniture and recommend the best outcomes

2.

Collect

We collect items from your site with our carbon-offset fleet

3.

Assess

Furniture is inspected and sorted to determine the best pathway

4.

Reuse/ Rework/ Recycle

We revive, repurpose or recycle materials to maximise recovery

5.

Reporting

Documentation confirming the responsible recovery and recycling of your furniture.

What you gain.

Responsible Recovery

Recycling Certificate*

*Where applicable.

Supports ESG Objectives

Dedicated Project Support

Real impact. Measurable results

Helping organisations reduce waste, support a circular economy and build a better future
