Drafting Chairs

Workspace continues to revolutionise the market by introducing a range of Drafting chairs to compliment our ever popular task chairs. Drafting chairs are used around the world by architects, lab technicians, artists and any professional who uses high work surfaces. The adjustable footrest and taller sitting position make these chairs ideally suited for these professions.

The Workspace drafting chair options stem from the popular task chair famililes of Dot.Pro, Eclipse, Mercury, Plaza, Tempo and Tone. All drafting chairs are available with height adjustable footrests and choices of fabrics and finishes.
