Glove

The Glove Chair boasts a sleek, one-piece polypropylene shell with perforations on the back for ventilation, ensuring comfort during extended use. Its generous proportions and simple lines create a versatile seating option suitable for various environments.

Available in three shell finishes—polypropylene, upholstered seat pad, or fully upholstered—the Glove Chair offers flexibility in design and function. Choose from six base options to suit your needs, including 4-leg metal or Beech, sled chair, sled stool, 4-star castor base and beam seating options.

Combining style, comfort, and adaptability, the Glove Chair is an excellent choice for commercial, educational, and hospitality settings.
