# Haven

The Haven Table is a contemporary evolution of our Retreat range, offering a cleaner look and improved chair clearance. Its softly rounded top edges and subtly radiused leg profile create a warm, modern aesthetic suited to a wide range of interiors.

To improve functionality, the Haven Table replaces traditional rails with strong steel leg brackets, delivering exceptional stability while keeping the underside open for armchairs of all sizes. This updated construction ensures long-term durability without compromising the table's refined appearance.

Crafted in Tasmanian Oak and available in veneer or prefinished options, the Haven Table pairs seamlessly with the Retreat range, allowing designers to mix styles while maintaining a cohesive look.

## DIMENSIONS
