Kubit

The Kubit range is a practical and dynamic group of units that will sit comfortably in a space without dominating it.

The quest for a crisp contemporary style has led to the introduction of narrow edge profiles, finely defined and cleanly executed; a new look that is in tune with today's minimalist thinking. The cabinets are available entirely in white, or you can specify front panels in a different finish. When you choose from our laminate or real timber veneer ranges you are adding your individual touch to an already distinctive style.

Kubit desks continue the minimal theme by using a distinctive edge profile to make the tops appear thinner, a look which is complemented by the unique Logos trapezoidal leg system. Using this design means that we can provide you with anything from a single desk to multiples of workstations, in any configuration.

Custom bookcase top shown with 500mm depth

SPECIFICATIONS
