

Touch

workspace
commercial furniture

The Touch work chair comes with a high or low backrest, with optional adjustable or fixed arms. Created in collaboration with Josep Lluscá, Touch has a polypropylene seat and back, finished in anthracite grey or white, and upholstered with fabric or soft leather over high-density foam. These chairs, with a polyamide or aluminium swivel angled base, are provided with pneumatic lift mechanism and a multi-adjustment mechanism - Synchro Self with automatic tilt tension adjustment.
